ROSARIES FOR THE MISSIONS

There is a tremendous need for Rosaries in the Mission Field. Many of our customers help out in this worthy cause by making inexpensive Rosaries and sending them to the Mission of their choice. Others would like to participate in this program, but do not know just how to go about it. We have the names of several Missions that have requested Rosaries. If you would like to receive it, simply request the list on your next order. Either #84-6 Mission Kits or #84-R St. Theresa Mission Kits can be used for your donations.

From time to time, we publish additional names of organizations that have need of Rosaries. If you have some favorite group, send their name and complete mailing address to us. We will try to put it on some future listing.

#84-6

#5084-6

#84-R

St. Theresa Cord Mission Rosary #84-R

• St. Theresa Mission Rosary is a simplified cord Rosary we have developed. The unique feature of ours is that in place of the knots (which some people find difficult to make) this Rosary uses short pieces of tubing between the Decades.

#84-R COMPLETE KIT FOR 100 ROSARIES \$74.00

INDIVIDUAL ITEMS CAN BE PURCHASED SEPERATELY

Consists of:	100	#84-C Crucifixes			
	100	#84-J Center	100 Yards	#84-D Cord	\$8.00

(See Page 5 for Appropriate Plastic Bags)

#84 1/2 R COMPLETE KIT FOR 50 ROSARIES \$40.00

#84-Sample SAMPLE KIT FOR 1 ROSARY \$1.00

Beads are available in Black, White, Red and Sapphire. You may have beads all in one color or assorted in as many colors as you wish. Minimum quantity of any color is 500 and the entire order must be in units of 1,000 of a color.

DIRECTIONS FOR MAKING THE #84-R ST. THERESA MISSION ROSARY

Cut off a piece of Cord about thirty inches long. Tie a firm knot in one end. Dip the other end (which for ease in threading should be cut diagonally), in Fingernail Enamel and let dry for a minute or two. If Nail Enamel is not available, rub a little Beeswax on the end to form a "needle".

Thread the Cord through one of the upper holes of the Centerpiece, from back to front so that the knot will be on the backside of the Center. Pull the Cord through and be sure that the knot will hold.

Now start making the Decades; first, a spacer, then ten beads, a spacer, a bead (Our Father), a spacer, ten beads, and so on until you have the necessary five Decades. Then add a spacer. Hold the Cord up by the needle end and let it swing freely until all tendency to twist is gone.

Then thread the Cord from front to back through the other upper hole in the centerpiece. Leave a little slack in the Cord so that the beads will slide freely (a quarter to a half inch is ample), and tie a knot in the end. Be sure the knot is strong enough to remain tied and cut the Cord a short distance beyond it.

Tie another knot, thread through the lower hole in the Center, pull tight, thread a spacer, a bead, a spacer, three beads, a spacer, a bead and a spacer. Thread through the top of the Crucifix, tie a knot in back (allowing a little play), and cut. Your Rosary is complete.

As an added precaution, you can put a drop of the Nail Enamel on each of the knots. This will prevent their ever coming untied.
